ISH China & CIHE – China’s leading international trade fair for Heating, Ventilation, Air-Conditioning, Sanitation & Home Comfort Systems will take place from 9 – 11 May 2022 at the New China International Exhibition Center in Beijing. The 2022 edition will focus on three primary themes: Energy, Water and Life, which are in line with China’s national development strategies. Covering trend setting HVAC, plumbing, smart heating and home comfort technologies and products in the Chinese and wider Asian markets, the fair is expected to welcome over 1,300 exhibitors to showcase their latest innovations across eight halls spanning a total of 106,800 sqm.

Since the introduction of the Chinese government’s "carbon peak" and "carbon neutral" policies, the country’s HVAC market is currently undergoing drastic energy reforms which pose many challenges as well as opportunities. At the same time, to adhere to the government’s strict green initiatives, manufacturers have actively responded by developing energy efficient HVAC solutions which meet the stringent carbon emission regulations. Consequently green and intelligent HVAC technologies continue to be key development focuses for manufacturers.

Organised by Messe Frankfurt (Shanghai) Co Ltd and CIEC GL events (Beijing) International Exhibition Co Ltd, ISH China & CIHE 2022 will focus on the latest trends of the HVAC industry which present lucrative opportunities for domestic and overseas brands. As the industry requires an effective platform to spark new business opportunities, a number of the industry’s leading brands have already confirmed their participation at the 2022 edition, including Aikeduo, BRD, Danfoss, Fangkuai, Fennikezi, Gassero, Grundfos, Haier, Kaaniche, Kenuo, Kiturami, Leo, Micoe, Midea, New Energy, NORITZ, Oilon, OUTES, Power World, Riello, Sermeta, Shengneng, Siemens, Tsinghua Tongfang, Vanward, Woke and others.

Furthermore, returning specialised display areas, zones and pavilions include the well-received German Pavilion, Zhejiang Pavilion, Overseas Area, Water Pump Zone and Clean Energy District Heating Area. All of which are targeted for domestic and global brands to display their advanced HVAC solutions and technologies to maximise companies’ exposure to China’s lucrative HVAC market. For 2022, over 10 exhibitors are confirmed for the Water Pump Zone and some of the leading brands include: Dooch, Goodpump, Grundfos, HOMA, Leo, Minamoto, Morgan,

Nanyuan, SFA, Wilo, Xiling, and others.

Similar to last year, various product categories will be arranged into different halls to make navigation for fairgoers more convenient. The fair's Energy theme will be highlighted throughout the entire exhibition centre and will feature various heat generation, floor heating, heat distribution, smart heating, industrial heating and air-conditioning solutions. Water themed exhibitors, showcasing piping and fittings, valves, control systems and tools will be housed in halls W1 and W2. Lastly, Life themed exhibitors will converge in hall E4, showcasing the latest comfort systems which include fresh air, air purification, water purification, cooling and heating systems, intelligent household solutions and more.

Concurrent event programme to demonstrate how national policies and digital trends positively impact China's HVAC market

The strong link between the exhibition and concurrent programme is what makes ISH China & CIHE a unique and prominent industry event. Responding to a series of national goals, specifically on peak carbon dioxide emissions and carbon neutrality policy, ISH China & CIHE will offer various summits, seminars and conferences, focusing on the fair's three core themes: Energy (the latest heating solutions paired with renewable energy sources), Water (water pumps, valves and fittings) and Life (home comfort products and solutions) will be offered. This creates a comprehensive educational platform for the likes of distributors, property developers, architects, interior designers, construction professionals and contractors, system integrators and more.

Moreover, the fair will host the Clean Heating Development Summit, where participants can look forward to gaining an overview of the current market landscape and exchanging ideas with renowned industry experts and academics. This summit is part of the China International HVAC Congress (iHVAC), which will also feature five additional must-attend forums:

- China Innovative Heating Products and Technologies
- Fresh Air Systems
- Home Comfort Intelligent Development Forum
- Air Source Heat Pump Heating Technologies
- FCH Cooling & Heating System Technology Forum

Additional highlighted seminars for the 2022 edition include which adheres to national policies and market trends include:

- 1) Geothermal Energy Development and Application Summit
Organised by: Geothermal Industry Working Committee of China Technology Supervision Information Association
- 2) Low-Carbon Healthy Human Settlement Environment Technology International Exchange Forum
Organised by: Low carbon healthy Living Environment Technology Center of China Association of Plant Engineering and

Background information on Messe Frankfurt

The Messe Frankfurt Group is the world's largest trade fair, congress and event organiser with its own exhibition grounds. The Group employs approximately 2,450 people at its headquarters in Frankfurt am Main and in 29 subsidiaries around the world. The company generated annual sales of approximately €257 million in 2020 after having recorded sales of €736 million the previous year. Even in difficult times caused by the coronavirus pandemic, we are globally networked with our industry sectors. We have close ties with our industry sectors and serve our customers' business interests efficiently within the framework of our Fairs & Events, Locations and Services business fields. One of the Group's key USPs is its closely knit global sales network, which extends throughout the world. Our comprehensive range of services – both onsite and online – ensures that customers worldwide enjoy consistently high quality and flexibility when planning, organising and running their events. We are expanding our digital expertise with new business models. The wide range of services includes renting exhibition grounds, trade fair construction and marketing, personnel and food services. Headquartered in Frankfurt am Main, the company is owned by the City of Frankfurt (60 percent) and the State of Hesse (40 percent).
